Objective:

As a 2nd-year computer science student, I am eager to apply my knowledge and skills to gain valuable experience in the field of technology and software development.

Education:

- Bachelor of Science in Computer Science
(Institution: Ajay Kumar Garg Engineering college , Ghaziabad)
(Graduation year: 2026)

Relevant Coursework:

- Data Structures and Algorithms
- Object-Oriented Programming
- Database Management Systems
- Web Development
- Computer Networks
- Operating Systems
- Software Engineering

Skills:

Programming Languages: Python, C++
Web Development: HTML, CSS, JavaScript
Database Management: SQL
Version Control: Git
Operating Systems: Windows
Software Tools: Visual Studio Code

Projects:

1. E-commerce website

- Developed a web-based task management application using HTML, CSS, and JavaScript.
- Implemented user authentication and data storage with SQL databases.
- Collaborated with a team to design and deploy the application.

2. Driver Drowsiness detection system

- Created a Python program to analyze and visualize data from a public dataset.
- Utilized data manipulation libraries like Pandas and Matplotlib for analysis and visualization.
- Assisted the development team in coding and testing software applications.
- Participated in daily stand-up meetings to discuss project progress and updates.
- Gained hands-on experience in debugging and troubleshooting software issues.

Extracurricular Activities:

- Member of the Music Society of my college (Euphony)
